Through advanced API integration, Flightdocs gives you the ability to replenish your inventory with minimal effort utilizing your Boeing (formerly Aviall) account. Flightdocs Enterprise automatically tracks the flow of parts within a single integrated inventory and purchasing system.

- Order parts from Boeing seamlessly with your existing user account.
- Restock parts in your existing inventory catalog with minimal effort.
- Track all ordered inventory automatically in Flightdocs Enterprise.

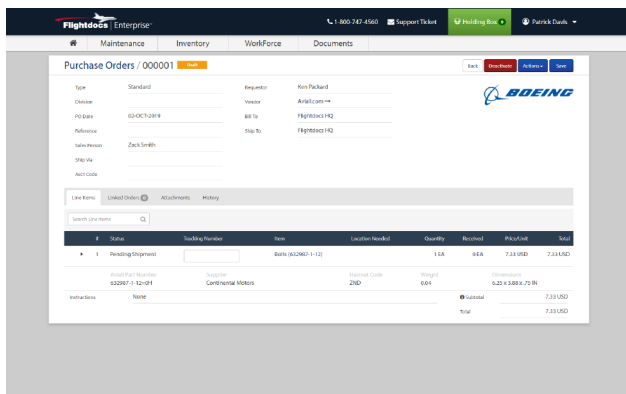

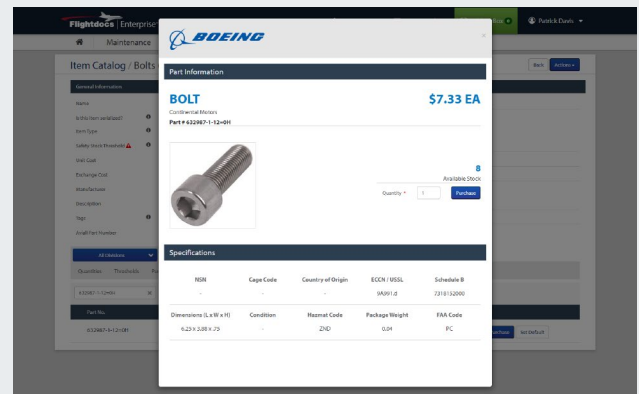

STEP 1 LOCATE PART TO PURCHASE

- Navigate to any inventory item.
- Click the Boeing tab.
- Review matching parts and pricing.
- Click the Purchase button.

STEP 2 INITIATE PART PURCHASE

- Review part specifications.
- Confirm part availability.
- Enter the desired quantity.
- Click the Purchase button.

STEP 3 COMPLETE PART PURCHASE

- Add additional parts to your order.
- Review the purchase order.
- Send the purchase order to Boeing.
- Monitor the order fulfillment status.
