

## Progress faster

A year after finishing the course, a quarter of Makers are in mid-level positions at their companies. After two years, 65% are mid-level developers.

## Earn more

The average yearly salary of a junior developer out of Makers is £33,000. After 2 years' experience, the average Maker earns £46,000.

## Adaptable skillset

While the Makers education focuses on Ruby and Javascript, our developers work in many different languages. Out of our alumni surveyed, 76% of them use JavaScript and 55% use React.js.

## Transformed lives

96% of the developers surveyed said that we transformed their lives for the better.

YES  
96%

## Where Makers work

## Friendly alumni network

With over 1,700 alumni, Makers has the UK's largest, most vibrant, supportive, diverse and fun alumni community in tech.
