

XanEdu K-12 CustomBook Solutions

Educators have more curriculum choice at their hands than ever before. Yet, longstanding, common challenges persist: traditional textbooks are viewed as overpriced, quickly outdated and lacking relevance at the state and district level. At the same time, unique supplemental content often gets lost in SharePoint, and teachers stand for hours at the copy machine.

With 20 years of experience, XanEdu empowers K-12 educators to overcome these challenges with our powerful customization solutions. Together we can create high-quality, customized readers and workbooks that help your students succeed.
