

Mosquito Reduction Program

Protecting What Matters

***Our customers
say it all...***

"With four children, our yard is very important to our family. HOME Pest Control has enabled us to enjoy our yard so our children can get outside and play without constantly swatting away mosquitoes. Since you began treating at the beginning of spring, there has been a substantial decrease in the amount of mosquitoes around our yard. We are also impressed that the good results seen can be achieved with such a low volume of product applied. This certainly appeals to the "green" lifestyle many people are trying to live by. Thank you for the much needed Mosquito Reduction Service."

"Thank you HOME Pest Control! We had our grandchildren over to swim in our pool and not one mosquito bite on them. I am extremely excited and very impressed with the Mosquito Reduction Service that you offer during the summer months."

— FAYE WILBUR, IRMO, SC

"It is so nice to be able to enjoy our pool this summer without the constant nuisance of mosquitoes. We are even able to host outdoor dinner parties without using any citronella candles to keep mosquitoes away. HOME Pest Control's Mosquito Service has proven to me that you can enjoy your own backyard in the summer due to a drastic reduction of mosquito population."

— JENNIFER BLACKHURST, WEST COLUMBIA, SC
