

Transformer Hanger

Hanging unit to save space and ease installation

EFLA is the leading manufacturer of high-quality series isolating transformers, connector kits and prefabricated cable assemblies for Airfield Ground Lightning. EFLA offers a broad range of standard products as well as customized solutions. EFLA products have been manufactured for over 30 years in Finland. EFLA is an ISO 9001 and ISO 14001 certified company.

Description

The Transformers Hanger (TS1) is designed to ease installation in locations where there are no ready-built places or solutions for the AGL transformers. With the TS1 the installation is possible by hanging the transformers from e.g. a pipe or by screwing them on a wall. The TS1 comes in one size and it fits all transformer ratings.

Material

The Transformer Hanger is manufactured from stainless steel to be long lasting and durable in the airfield environment.
