

# Still using Adobe Creative Suite?

## Here's what you're missing.

Creative Cloud for teams is a completely new way to think about software. Perpetual software like Creative Suite offers a specific combination of applications with finite feature sets. But a Creative Cloud membership offers an ecosystem of desktop apps, mobile apps, online services and collaboration tools that not only connect your creative workflows but continue to add ongoing value through continuous innovation. This document provides a comprehensive comparison of a Creative Cloud for teams membership vs. perpetual Creative Suite software.
