## Step 2 – Setting DVR/NVR Configurations

1. Setting Up Email Notifications on DVR/NVR

	Base	WIFI	3G/4G	P2P	DDNS	UPNP	Email		
(     Channel		Enable							
		SMTP server	smtp.gmail.	com					
Record		Port	465						
		Open SSL							
Alarm		User name	johnschuma	n90@gmail.c	om				
		Password							
() Smart		Sender	johnschuma	n90@gmail.c	om				
P. Mahurada		Title	ALARM					R	
CCC INELWORK		Receiver1	johnschuma	n90@gmail.c	om				
Setting		Receiver2							
Ţ,		Receiver3							
						-	MailTest	Apply	
	• Playback	رکې set	Main	tain	Backup	Shut	l) down		

- Go to Main Menu/Set-across bottom/Network-on the left/Email-across the top
- Check off "Enable"
- The SMTP Server will be "smtp.gmail.com"
- SMTP Port is "465"
- Enable the box for "Open SSL"
- The "Username" and "Password" must be your Gmail login information
- Enter the "Sender Name", this must be the same as your Gmail email I.E. Johnschuman90@gmail.com
- "Receiver 1-3" is the email address of the person(s) who will be receiving the alert email notifications. This does not have to be a Gmail address it can be anything you would like
- Click the **"Mail Test"** button to make sure you get a successful connection. If not, refer to Gmail account and make sure Less Secure Apps is turned On and all information is entered correctly. Once you get a success message Click **"Apply"** to save.
- 2. Enabling Motion Detection Emails

- Go to Main Menu/Set-across the bottom/Alarm-on the left/Motion Detection-across the top and select your camera under "Channel"
- Check off "Enable", set your sensitivity and set your motion mask as needed
- "Interval" Is if Snapshots are selected for that motion detection to be sent in body of email

• **"Schedule"**, this arming schedule is setup for when you want this individual camera to send specific Actions selected. For instance, emails are sent 24/7 but Camera 1 only sends emails on Tuesday between 06:00-17:00

		······	Action	fideo lost Dest	A hard some still a second still a second state	
Channel	Alarm out	1 10 Sec				
C Record	Show message					
Alarm	Buzzer					
Smart	Record CHN Record delay	1 2 3 4 10 Sec				
A Network	PTZ Act Tour	Set 1 2 3 4				
Setting	✓ Snapshot	1234				
	*					
					Save	Apply
		<u></u>	×			
	Playback	Set	Maintain	Backup	Shutdown	

• "Copy/Paste" allows you to copy current channel and paste to another channel(s)

• "Action" make sure to check off "Send Email"

•Below, click on **"Snapshot"** and check off the channel number if you would like a picture along with your email notification

•Click on "Save" to apply
