

FOR IMMEDIATE RELEASE

CIMETRIX TO PARTICIPATE IN SEMICON WEST 2012

Presenting at the [Emerging Software Communication and Metrics Standards Workshop](#)

SALT LAKE CITY, UT — June 25, 2012 — Cimetrix Incorporated (OTCQB & OTCBB: CMXX) (www.cimetrix.com), a leading provider of [factory automation](#) and [equipment control software solutions](#) for the global semiconductor, photovoltaic, LED, and other electronics industries, announced today it will participate in SEMICON West 2012 in San Francisco, Tuesday July 10 through Thursday, July 12, 2012.

During the past nine months, Cimetrix has made significant enhancements in two of its product platforms to deliver improved factory floor efficiencies and productivity. Cimetrix personnel will be available in booth #1241 to demonstrate the new [CIMPortal](#)[™] version 2.0 EDA/Interface A software development kit for equipment data capture and the [CIMControlFramework](#)[™] version 3.5 offering the latest advancement in the Company's unparalleled equipment control software. Cimetrix personnel will also be available to discuss two new projects in which Cimetrix is collaborating with ISMI: Fingerprinting (equipment health monitoring) and Wait Time Waste (WTW).

During SEMICON West, Cimetrix will participate in a number of industry events including leadership roles at the SEMI standards meetings for GEM300, DDA and HBLED, as well as presenting at the [Emerging Software Communication and Metrics Standards Workshop](#) on Wednesday, July 11, 2012, from 1:00PM to 5:00PM, at the San Francisco Marriott Marquis. This workshop will include a session entitled "Product and Equipment Time Metrics" which will reference the Cimetrix-ISMI project on Wait Time Waste.

###

About Cimetrix Incorporated

Cimetrix (OTCQB & OTCBB: CMXX) develops and supports factory automation software products for the global semiconductor, photovoltaic, LED, and other electronics industries. Cimetrix [factory connectivity](#) software allows for rapid and reliable implementation of the [SEMI SECS/GEM](#), [GEM300](#), [PV2](#), and [EDA](#) standards. Our flexible [equipment control](#) framework software is the latest technology that enables equipment suppliers to design and implement their supervisory control, material handling, operator interface, platform and process control, and automation requirements of manufacturing facilities. Cimetrix products can be found in virtually every 300mm semiconductor factory worldwide and include [CIMControlFramework](#)[™], [CIMConnect](#)[™], [CIM300](#)[™], and [CIMPortal](#)[™]. The added value of Cimetrix passionate [Support](#) and [Professional Services](#) delivers an outstanding solution for precision equipment companies worldwide.

Cimetrix is an active member of Semiconductor Equipment and Materials International ([SEMI](#)), including the SEMI PV Group, and participates in various International SEMATECH Manufacturing Initiative ([ISMI](#)) programs.

Safe Harbor Statement:

The matters discussed in this news release include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Statements about the Company's prospects for future growth and results of operations are forward-looking statements. The comments made by the Company's senior management in regards to future revenue and results are based on current expectations and involve risks and uncertainties that may adversely affect expected results including but not limited to recovery of the economic markets into which the Company sells products, increased capital expenditures by semiconductor chip manufacturers, market acceptance of the Company's products, the timing and degree of adoption of Interface A by the semiconductor industry, the ability of the Company to control its costs associated with providing products and services, the mix between products and services (which generally have higher associated costs of revenue) provided by the Company, the competitive position of the Company and its products, which include CODE, CIMConnect, CIM300 and CIMPortal product families, the economic climate in the markets in which the Company's products are sold, technological improvements, and other risks discussed more fully in filings by the Company with the Securities and Exchange Commission. Many of these factors are beyond the control of the Company. Reference is made to the Company's most recent filing on Form 10-K, which further details such risk factors.
