

Drug Testing Solutions – Today & Tomorrow

Drug Testing During a Pandemic of Unknown Duration

averhealth

Reclaiming Lives. Uniting Families. Strengthening Communities.

How to Safely Administer Drug Testing at our Patient Care Centers

- Discontinued breath alcohol testing until a vaccine/treatment is developed
- Increased cleaning and sanitation of the patient care centers focusing on high touch areas such as door handles, counters, sinks, and toilets
- Ensuring proper use of personal protective equipment (PPE), such as gloves and masks
- Increased hand washing for staff and patients
- Limiting the care center to 6 or less patients
- Maintaining physical distances of 6 feet (i.e., spread waiting room chairs 6 feet apart)

How to Safely Administer Drug Testing at our Patient Care Centers

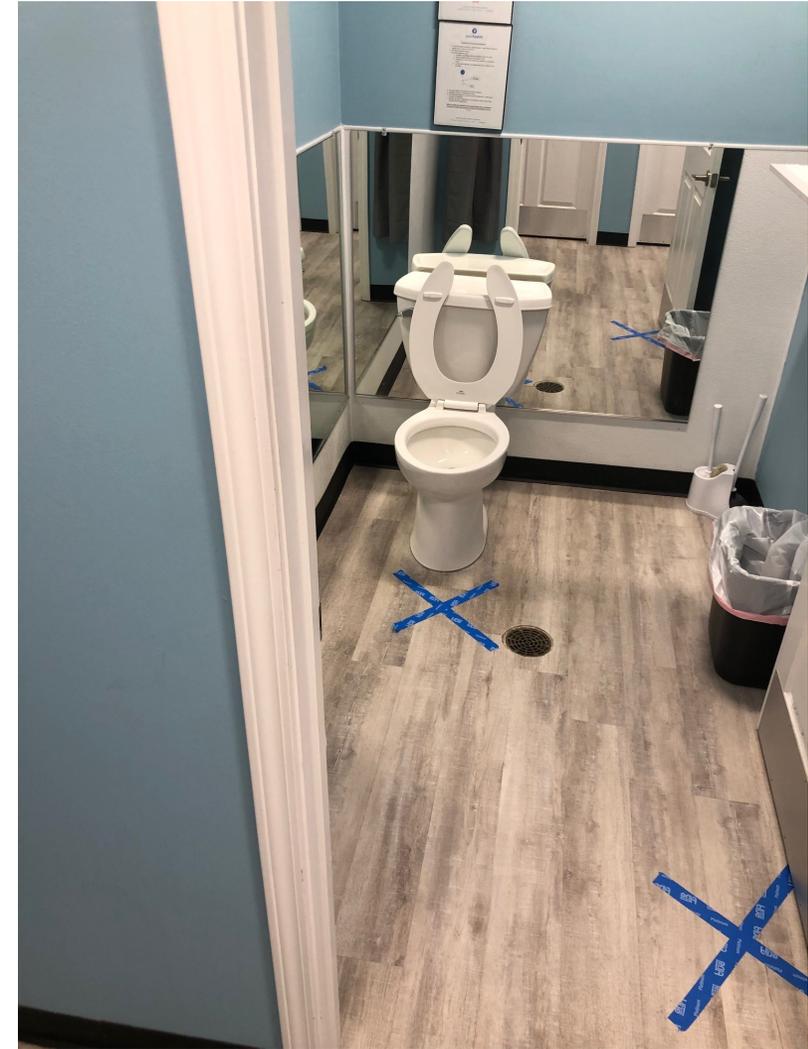

- Patients and staff only – no visitors allowed
- Monitoring staff temperature (take temperature before and after shift) and symptoms
- Monitoring patient temperature prior to entering the patient care center
- Notifying patients of least busy times
- Managing testing schedule to promote physical distancing
- Provide staff with Essential Critical Infrastructure letter on official letterhead

Social Distancing & PPE Equipment for Staff

Social Distancing in Parking Lot, Lobby and Collection Area

Check-in Text Messaging to Ensure Physical Distancing when Possible

PLEASE READ BEFORE ENTERING:

Please return to your vehicle and text **XXX-XXX-XXXX** that you are here and ready to test.

You will receive a verification text and another text when it is your turn to enter the facility.

If you do not have a phone, please enter the lobby, let staff know that you do not have a phone, what vehicle you are driving and where it is parked. Then return to your vehicle. We will place you in line and will come out and notify you when it is your turn to enter the facility.

Monitor Patient Temperature & Symptoms

PLEASE READ BEFORE ENTERING

Have you been diagnosed with COVID-19?

Have you been exposed to someone who is diagnosed with COVID-19?

Do you currently have a fever above 100.0?

Have you traveled outside the USA to Europe or Asia?

If you answered "YES" to any of the above questions:

DO NOT enter the facility.

You must **IMMEDIATELY CALL YOUR PROBATION OFFICER** and let them know the reason you could not test today.

If you DO NOT call your Probation Officer, you are considered a "NO SHOW" and it will be reported to your Probation Officer and/or your Judge.

We appreciate you following these instructions for the safety of our staff and other patients.

CDC Guidance for Critical Workers Exposed to COVID-19

Pre-Screen:

- Employers should measure the employee's temperature and assess symptoms prior to them starting work.
- Ideally, temperature checks should happen before the individual enters the facility.

Regular Monitoring:

- As long as the employee doesn't have a temperature or symptoms, they should self-monitor under the supervision of their employer's occupational health program.

Wear a Mask:

- The employee should wear a face mask at all times while in the workplace for 14 days after last exposure.
- Employers can issue facemasks or can approve employees' supplied cloth face coverings in the event of shortages.

Physical Distance:

- The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.

Disinfect and Clean Workspaces:

- Clean and disinfect all areas such as offices, bathrooms, common areas, shared electronic equipment routinely.
