

# Smoothwall Classroom Manager

Designed from the ground up to help busy teachers manage dynamic classrooms, Smoothwall Classroom Manager gives them the control needed to maintain productive learning environments. Designed to work within the Google classroom, this crucial tool empowers teachers to be self-sufficient and improve learning outcomes.

## Key features

### Regain focus with lock screen

Locking whole or individual screens helps maintain class focus.

### Evidencing

Screen snapshots can be taken and saved locally for evidencing purposes.

### Open tab

Open specific URLs for every student to focus on the same content.

### Grid view

Student devices appear as thumbnails in a single screen for easy 'scan and see' by the teacher.

### Full session control

Allows teachers to manage session times and add or remove students without IT assistance.

### Active / inactive / close tabs

Monitor tabs on current and background screens with the ability to remotely close tabs when necessary.

### Syncs with Google Classroom

Easy log in with Google ID. Full Google Classroom synchronisation removes the need to create classes from scratch.

### Real-time monitoring of student devices

Real-time monitoring gives teachers immediate visibility when a student goes off track.

### Peer-to-peer architecture

Low impact, innovative, peer-to-peer architecture keeps bandwidth requirements to a minimum.

## New features - Coming soon

At Smoothwall our goal is to keep our customers one step ahead in the evolving world of digital safety. That means never standing still. We're continually collaborating and engineering to provide the best solutions possible. We have some exciting new features coming in 2019 for Classroom Manager. Take a look below and if you have any questions please get in touch. We'd love to tell you more.

### Focused learning

Teachers retain full URL control on student devices.

They control the number of tabs and ensure students' attention is on specific URLs, and away from anything else.

### Rostering integration

Integrates instantly with a school's management information system where student records are held.

The system knows which class is being taught, when and to which students.

No need to key in details, no lockouts, no conflicts.

### Chat

#### Teacher to student:

Includes a series of quick to use commands a teacher can send to a student E.g. 'Please focus on task', or 'five minutes to finish'.

#### Student to teacher:

Includes a series of quick to use responses a student can send back to a teacher E.g. 'Done' or 'understood' or 'help'.

Communications are quick, private and with no interruptions to the rest of the class.

### Mobile control

Teachers can control elements of the dashboard from a mobile phone freeing them to walk around and integrate fully with their class without needing to stay tied to their computer screen. Elements include:

**Lock button** – immediately locks all devices.

**Distraction alert** – discretely alerts the teacher to a student going off track.

### Tell us how we're doing

Having a collaborative relationship with our customers is important to us at Smoothwall. It allows us to develop products that are tightly aligned to your technical, functional and management needs.

If you have any feature suggestions for Classroom Manager please tell us. **We'd love to hear your feedback.**
