

THE
**CLEANEST
UNIFORM**
IN AUSTRALIA

No matter how dirty a Fairtrade cotton school uniform gets, it will never be stained with child labour or unethical production practices

Why Change to Fairtrade Cotton Uniforms:

- Cotton is often farmed using child or exploited labour, hazardous chemicals, or in an environmentally unsustainable way.
- Most of the estimated 100 million rural households whose livelihoods depend on cotton are living in poverty.
- Many families cannot afford to send their kids to school, and sometimes children even have to work alongside their parents just to make ends meet.
- Fairtrade ensures stable prices, decent working conditions and the empowerment of farmers and workers around the world.
- Buying Fairtrade Certified Cotton products provides social, environmental and economic benefits for the whole community.
