autobooks

Autobooks works hard to make small business banking simple. Through our partnerships with banks and credit unions, small business owners can gain access to a modern suite of tools to help making running their business easier.

When you join Autobooks, you're joining a team dedicated to small business growth. We want your ideas, passion and experience to continue improving what we offer.

Our downtown Detroit HQ is in the vibrant Madison building, named one of the World's Coolest Offices by Inc. Magazine. Autobooks also has a growing presence in Texas with a satellite office in Austin; and offers flexible, remote work environments for certain roles.

Ready to help change what it means to do small business? Let's talk.

The Role: *Sr. Financial Analyst*

We are currently seeking a Sr. Financial Analyst who has built, analyzed and led major database manipulation projects using powerful database tools. The Sr. Financial Analyst will be responsible to analyze over hundreds of thousands of customer's data points in order to ascertain operating performance and identify trends and opportunities for improvement. The Sr. Financial Analyst must be a self- motivated independent worker with exceptional organization and analytical skills. This person will have an opportunity to work on various projects, and be on the ground floor to build new processes and metrics.   In addition to accounting-related responsibilities, the Sr. Financial Analyst is involved with various financial analysis projects on a regular basis.

Responsibilities:

- Developing financial libraries using data mining and reporting tools (MS Access, DOMO, Quicksilver, Adaptive Insights or SQL)

- Collecting, analyzing and managing quantitative data and creating meaningful analyses to identify risks and opportunities

- Develop and maintain key reporting metrics to enable management to make data driven decisions

- Deliver high level financial analysis by aggregating input from various resources across the business with a demonstrated deep understanding of the details and data behind the analysis

- Developing annual budget and maintaining current year forecast

- Recommend strategic direction based on analysis

- Conducts special studies as assigned to support senior management

Desired Qualifications:

- BA/BS Degree in Finance, Accounting, Business, or similar discipline with analytical bias

- Relevant experience reporting financial results, forecasting, budgeting, variance analysis, and data interpretation of business impact and results

- Expertise in Excel (macros, index, conditional list, arrays, pivots, lookups)

- General understanding of U.S. Generally Accepted Accounting Principles

- Full understanding of Financial Statements; P&L, Balance Sheet & Cash Flows

- Strong modeling, presentation and analytical skills

- Ability to multi-task and deal with multiple priorities

- Advanced skills in large data tools (MS Access, DOMO, Adaptive Insights or SQL) is a plus

Job Type:

- Full Time

Job Location:

- Detroit, MI
