autobooks

Autobooks works hard to make small business banking simple. Through our partnerships with banks and credit unions, small business owners can gain access to a modern suite of tools to help making running their business easier.

When you join Autobooks, you're joining a team dedicated to small business growth. We want your ideas, passion and experience to continue improving what we offer.

Our downtown Detroit HQ is in the vibrant Madison building, named one of the World's Coolest Offices by Inc. Magazine. Autobooks also has a growing presence in Texas with a satellite office in Austin; and offers flexible, remote work environments for certain roles.

Ready to help change what it means to do small business? Let's talk.

The Role: *Junior QA Engineer*

As a Junior QA Engineer at Autobooks, you will apply your critical thinking and bug catching savvy towards improving the customer experience for our users. You are passionate about ensuring a quality product and will make an immediate impact purposely breaking software and identifying and calling out product issues. You have deep analytical skills and are excited about making a difference in the Fintech industry!

Hard skills and day to day tasks

- Creating test cases and test plans for new feature work as well as ongoing enhancements and bug fixes
- Estimate testing effort for upcoming sprint work items
- Responsible for identification, documentation and execution of all testing scenarios
- Keep cards updated in ticket management system and communicate the state of fixes to the group
- Eager to work with developers during the development process to answer requirement questions and resolve issues before they arise
- Using SQL querying to identify and assist in resolution of issues. Using SQL to set up test scenarios
- Assists with go / no-go release decisions
- Consistent regression testing requires attention to detail

Softer skills and big picture responsibilities

- Organization of multiple projects within one team and working across teams
- High sense of urgency to adapt to quickly established deadlines
- Detailed record keeping/documentation
- Must be able to work in a dynamic environment
- Question-asker, communicative

Requirements
- 1-2 years of manual testing experience

autobooks

- 1-2 years financial/accounting knowledge (ie, a business degree or worked in a bank or fintech)
- 1-2 years basic SQL querying
- Jira experience/similar bug tracking software is a plus
- Previously worked in agile environment (preferably a startup) is preferred
- Automation experience is also a plus

Job Type:
- Full Time

Job Location:
- Detroit, MI

A flexible, entrepreneurial work environment and team atmosphere makes this a great place to work.
