## RECALL

US NHTSA CAMPAIGN ID:  
17V057000

Mfg's Report Date:  
January 26, 2017

Component:  
SEATS

Potential Number Of Units Affected:  
17,197

Summary:  
General Motors LLC (GM) is recalling certain 2016-2017 Chevrolet Cruze vehicles. A bracket used in the driver or front passenger seat-back recliner mechanism may have been incorrectly welded to the seat-back frame, as a result, in the event of a crash, the head-restraints may not function properly. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 202a, "Head Restraints."

Consequence:  
In a crash, the seat-backs for the front seats may break, increasing the risk of injury to the occupants.

Remedy:  
GM will notify owners, and dealers will inspect the front passenger seats, replacing any with seat-back frames that are incorrectly welded, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact Chevrolet customer service at 1-800-222-1020. GM's number for this recall is 17035.
