

Camouflage

Learn about the concept of camouflage with the Kratt brothers and one of the masters of blending in – the walking stick! Walking sticks can be found right here in Pittsburgh.

Test your skill at spotting Camouflage animals with the following examples from Project Learning Tree. Some are easier to spot than others!

<https://www.plt.org/educator-tips/camouflage-nature-examples>

After warming up with pictures, further test your skill with the Camouflage Trail activity from Sharing Nature. See camouflage work in action by trying to find hidden objects along a trail and discussing how easy or hard they were to find.
