

THE CONNECTED HOME SOLUTION FOR UTILITIES

## BYOT

EnergyHub's BYOT service makes it easier than ever to launch a Bring Your Own Thermostat® (BYOT) demand response program, rapidly scale your program, and offer greater choice to your customers.

BYOT streamlines the program launch process and significantly reduces costs by including all of the services a utility will need to roll out an effective demand response program:

- Vendor onboarding and contracting
- Vendor incentive processing
- Digital marketing kits for vendors
- Customer communications
- Automated customer enrollment and validation
- Demand response dispatch and reporting

### Why work with EnergyHub for BYOT?

- ✓ Access to many thermostat brands with a single contract
- ✓ Reduced program and deployment risk
- ✓ Seamless enrollment and DR systems for BYOT rollout
