

Maximizing a patient's facial aesthetic goals is his passion which is why Dr. Raval has become a leader in the art of facial plastic surgery. After being named a 5280 Top Doc of 2016 for plastic surgery within the head and neck, his peers seem to agree. As the owner of Raval Facial Aesthetics and Rocky Mountain Laser Aesthetics, Dr. Raval and his team of registered nurses and certified aesthetic laser technicians have built a practice that has received countless accolades for over 15 years of caring service to local, national and international patients. Listening to the needs and objectives of their patients, discussing their options and delivering the highest quality patient care and outcomes is their goal.

Dr. Raval is known in Denver as the leader in rhinoplasty (nose job) and facelift procedures. As interest in non-surgical rejuvenation has grown, Dr. Raval has excelled in the use of newer tools such as Botox, Dysport and dermal fillers Juvederm, Restylane, and Voluma to maximize aesthetic outcomes in the office with minimal downtime. Dr. Raval and his team use their education, training and years of experience to help patients look their best.

His love for facial plastic surgery extends beyond the practice of medicine. He is also an educator for Allergan (makers of Botox, Juvederm and Voluma) and Galderma (makers of Dysport and Restylane), being entrusted to train other physicians around the country in the best practices for dermal fillers, facial volumizers and botulinum toxin injections.

As a regular guest on Colorado and Company (KUSA) as well as Colorado's Best (KWGN), Dr. Raval frequently informs the public about the latest treatments and trends in cosmetic surgery.
