

ASX Announcement

PERTH SEP 11, 2019

FAMILY ZONE AWARDED AUSTRALIAN PATENT

Family Zone Cyber Safety Ltd (ASX: FZO, 'Family Zone' or 'the Company') is pleased to update the market on progress with the Company's intellectual property.

Award of Patent

The Company has now received advice from IP AUSTRALIA of the award of Australian Patent No. 2015245935 in relation to our "Device Management System". This patent application was lodged in April 2015 and is associated with our International Patent Corporation (PCT) application Numbered WO 2015/154133 A1.

A Device Management System

The intellectual property of this patent application is what the Company describes as the "Universal Cyber Safety Platform". This platform is a unique (and now patented) system for managing Internet usage of user devices based on a cloud based set of access policies which are enforced through technology which may be installed on end-user devices, in mobile networks or in network gateways.

Implications & next steps

The award of this Patent follows the award of our patent in the USA in July 2019. Our successful patent applications further validate the uniqueness of our 'platform approach' to cyber safety and offers opportunities and IP protections for the Company globally.

The Company continues to pursue worldwide patent registration through the international PCT process. Updates will be provided as these progress.

About Family Zone

Family Zone is an ASX-listed technology company focused on cyber safety. Meeting a growing demand to keep kids safe online and manage digital lifestyles, Family Zone has developed a unique and innovative cloud-based solution which combines Australian innovation with leading global technology.
