

What is a Family Zone Webinar?

A webinar is a live, web-based video conference that uses the internet to connect the presenter hosting the webinar to an audience of viewers.

Our presenters will show themselves speaking, switch to their computer screens for a slideshow and give a demonstration of how to use Family Zone at home.

- Our **webinars** are a view-only platform where the attendees cannot see each other, and the Host cannot see the attendees.
- Our **webinars** have a registration, reporting and in-meeting chat for attendees.
- You will be able to ask **questions** at the end of the presentation - You will be **muted** during the presentation
- However you will be able to **type a question** throughout the presentation via the **Q&A** function
