

Ensure regulatory tax compliance

All-new features in Sage Fixed Assets 2017.1 help you safeguard your tax deductions and increase ROI.

Improve compliance with our most recent tax update—available one month early! Here's what you can expect from the newest release of Sage Fixed Assets 2017.1.

Federal tax update

Reflects vital tax depreciation law changes to ensure proper tax deductions and increase your Sage Fixed Assets product ROI.

Import select customized reports

Eliminate the need to create duplicate companies when using customized reports, saving you time, effort, and eliminating errors.

Performance enhancement program (PEP) Web interface

A new look and clearer language makes it easier for customers to find what they're looking for.

Help menu update

New interface updates for this internal usability tool help you extract data without the need for complex SQL queries.

GL link menu update

Updated Sage integrated product names eliminate confusion around compatibility.

Virtual scanner image update

A new virtual barcode scanner is more consistent with the current model we sell.

Windows 10 Anniversary Edition compatibility

Windows 10 compatibility builds customer confidence and improves the interaction between sales and support teams and customers.

Get a more comprehensive view of your business.
