Sage Fixed Assets 2017

A simple software update helps you improve your workflow efficiency and reduce implementation costs.

1. **Enhanced asset list option** – Eliminate the need to drill down into individual asset details and retrieve the information you need with an at-a-glance look into physical asset data.

2. **Updated transfer report setup** – Save time and confusion by eliminating the need to create manufacture groups to obtain the desired reporting output.

3. **Improved integration to Sage 100 Premium** – Improve process with less chance of error in the transfer of valuable data when integrating with Sage 100 Premium.

4. **Branding refresh** – Experience an interface that's consistent with our latest Sage branding efforts.

5. **Microsoft SQL Server Express compatibility** – Reduce overall Sage Fixed Asset Premier implementation costs with modest system requirements.

6. **Sage Advisor update** – Find out what's new in each release with a fast and easy access to product downloads, and get updates on Sage Business Care status.

Sage Fixed Assets 2017.1

Ensure regulatory tax compliance with the most recent federal tax regulations.

1. **Federal tax update** – Reflects vital tax depreciation law changes to ensure proper tax deductions and increase your Sage Fixed Assets product ROI.

2. **Import select customized reports** – Eliminates the need to create duplicate companies when using customized reports—saving you time and effort, and eliminating errors.

3. **Performance Enhancement Program (PEP) Web interface** – New interface updates for this internal usability tool that gathers usage information from SFA customers help you extract data without the need for complex SQL queries.

4. **Help menu update** – A new look and clearer language make it easier for customers to find what they're looking for.

5. **GL link menu update** – Updated Sage integrated product names eliminate confusion around compatibility.

6. **Virtual scanner image update** – A new virtual barcode scanner is more consistent with the current model we sell

7. **Windows 10 Anniversary Edition compatibility** – Gives customers the confidence that their software is compatible with today's latest PC requirements.
