Specialty Chain Guides For Bakery and Dairy Applications

Bakery and Dairy carton conveyors commonly use 3500 chain for moving cartons and pans. To accommodate this chain, a carry and return chain guide is often used. Chain guide is available in machined and extruded variations.

Specialty Packaging Components

Slideways produces a wide variety of components for packaging applications. Our flexible manufacturing capabilities enable us to manufacture unique parts small and large volumes.

- ▲ These packaging lines include Slideways belt attachments, guide blocks and pin guides.
- ◀ We produced just two of these parts, used to apply labels to small bottles in a dairy.
