

**INTELLIGENT, SECURE
MOBILE SOLUTIONS:**
Because you're on the move.

“Since we removed our wall mounted kiosks and started using CareServ’s mobile devices for documenting, we’ve seen our ADL compliance score jump from 50% to over 95%. This has had a dramatic and positive effect on our bottom line.”

– Debra Smith, Corporate Clinical Informatics Director, TLC Management, Indiana

**We can protect you from theft, malware, and even bacteria
(take that, germs).**

To stay relevant and provide lasting care for your residents, you need up-to-date, protected technology and a reliable team to support your tools. Don't worry. We've got you.

CareServ has smart, mobile solutions to manage today's healthcare needs and plan for tomorrow's demands. We're here to help you simplify and streamline your operations, so you can get back to caring for others.

FINALLY, HEALTHCARE DEVICES YOUR STAFF AND RESIDENTS DESERVE

Senior care providers are basically just like Batman. You have detailed and demanding jobs — and you need cutting-edge tools as you work to help humanity. At CareServ, we supply you with best-in-class Android and Apple devices and smart, secure processes to help you best serve your residents. Just think of us as your tech-savvy Robin AND Alfred.

Fluent in both nerd and nurse, our experts collaborate with your team to design custom plans and select the best technology for the job. From there, we provide hands-on training and continued device management and support. Plus, with our premium water- and shockproof cases and 2-year antimicrobial coating, your devices can withstand pretty much anything — including swan dives into the toilet.

And, when it's time to update and trade in your devices, our tech experts properly remove and delete all PHI and confidential data. You don't even need to use the bat signal — just call our 24/7 Service Desk.

- State-of-the-art mobile devices
- 24/7 tech support
- Antimicrobial, self-sanitizing coating
- Premium water- and shockproof cases
- Ready-to-use out of the box
- New devices every 2 years

Check this out:

Independent laboratories in Round Rock, Texas verified that our state-of-the-art antimicrobial coating kept mobile devices 99.99% bacteria free after 24-months of real-world use. That's right: Our devices come with two full years of total, senior-care-proof germ protection. (Goodbye bugs!)

MOBILE DEVICES HELP REDUCE:

- » Emails and phone tag by 80%
- » Medication administration errors by 60%
- » Healthcare costs by 55%
- » Frustrated employees by 1000%

HONEST, SECURE, AND GEEKY SUPPORT

While you care for your residents, we care for you by keeping tabs on your phones and tablets at all times. From protecting confidential data to ensuring your devices don't grow legs and wander off, our remote management plan offers leading service and safety.

In fact, geofencing technology allows us to monitor the physical location of your devices and control access to PHI and other sensitive information. We set up a virtual boundary to block access to lost or stolen mobile devices as soon as they leave your community. And, when those devices find their way back, we automatically restore your access and get you up and running again. Yep. It's that easy.

- Constant theft protection
- Improved regulatory compliance
- Proactive security with remote monitoring
- Controlled device and app updates

CareServ takes the pain out of healthcare technology by offering tailored solutions designed to fit each senior care community's needs. From infrastructure planning to EHR training and everything in between, we harness the power of geek to keep systems securely humming 24/7. Our philosophy is simple: Never leave our clients in a lurch. Whether it's device monitoring or technical support, we're always on so you can focus on what you do best — caring for seniors.
