APSPAYS Vault

The APSPAYS Vault allows you to store customer payment credentials for future use. APSPAYS Vault is a 100% PCI-DSS compliant gateway with many reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

Save up to 43%

Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and MasterCard B2B transactions. The average small to mid-sized business saves $18,000 per year by providing the comprehensive level 3 data requirements. APS Payments integration will automatically send the required data for you, to ensure quick payments at lower costs.

EMV

If you have card-present transactions, you should ask if APS Payments can provide your business with a fully integrated EMV credit card terminal. This will eliminate the need for double entry, lower chargeback risk, and lower transaction fees. Prevent counterfeit chargebacks!

ClickToPay

APS Payments is constantly developing new software solutions and integretations compatible with merchants' accounting, POS, and eCommerce software. APS ClickToPay is a secure way to have invoices paid by your customers with one easy click. If a pre-built integration is not available for the business solutions you use, we have an API available to develop a custom integration.

ClickToPay Direct

Introducing the latest advance for Bank-to-Bank transfers in neatly packaged web check technology. Our exclusive ClickToPay Direct product reduces chargeback replies to 72 hours for B2B transactions while allowing your customers to easily make secure transfers.

Every Business. Every Payment.
