

5 POWERFUL REASONS TO

move to the cloud

WITH FYISOFT'S CLOUD REPORTING

FYIsoft is a powerful cloud financial reporting solution that integrates with your existing GL to deliver superior reporting capabilities and accelerate period close processes. Even if your core financial system remains on-premise, FYIsoft easily integrates to deliver all the benefits of cloud reporting - without replacing your existing system.

Always accessible

With our cloud software, users are no longer tied to a desktop or Excel installation. Reports can be securely shared and viewed online, from anywhere, at anytime, and from any device.

Lower cost

With cloud deployment, there is no capital investment or large upfront fee. Usage fees are lower, allocated monthly, and inclusive of support and some services. A typical ROI can be achieved in as little as three months.

Always current

Our cloud technology ensures that you always have the most up-to-date software. FYIsoft is continually enhanced with new features - automatically updated without added costs, so you'll never be stuck with outdated software.

Faster deployment

Implementation is quick and easy in the cloud without any need for local installment. Once FYIsoft is integrated with your GL, we can have you up and running within days.

Easier administration

Since our web-based software runs from your browser, there is no need for IT support. Our software is intuitive and easy to use. New users can be trained quickly without the need for costly training.

Isn't it time for the cloud?

FYIsoft is a low cost, low risk financial reporting solution with the power to transform the way your team creates and distributes your company's most important reports.
