

Paya's Sage Enterprise Management Integration

Fast. Simple. Flexible business management.

Manage core business processes with integrated functionality and minimal IT investment and resources. Accelerate business growth and run an agile organization.

Benefits

- **Accept all Payment Types.** Credit, debit, ACH, EFT, FSA, and recurring payments.
- **Sales Order Re-Authorizations.** Automated and dynamic order updates keep business moving forward.
- **Receipts and Invoices.** Get paid faster with emailed invoices and payment receipts.
- **Multi-Currency Processing.** Enable cross-border commerce and transactions, with security and confidence.
- **Automatic Level 3 Data Enrichment.** Helps qualify for lower processing rates.

Paya was the first payments provider built into Sage Enterprise Management. Paya offers an easy onboarding experience, a powerful, user-friendly payments interface, and the latest payments innovations.

Also benefit from:

- **Paya's Sage-certified integrated credit card solution.** Paya is the only processor whose integrated credit card solution is certified by Sage.
- **Paya's Sage-recognized PCI compliance reputation.** Paya is the only Sage processor listed on the PCI website.
- **Same Day Underwriting.** Gets customers processing quickly.
- **Next Day Funding.** Rapid batch processing accelerates cash flow.
- **Access to Industry Experts.** Collaborate with Paya's team of industry experts to help drive growth.
