

Accounts payable automation, built to delight

sage AP Automation
Powered by Beanworks

See why companies choose Sage AP Automation to connect their teams from purchase to payment.

Eliminate data entry

Your team is busy. Leave the data entry to us and focus on strategic tasks that impact your organization's bottom line and help you grow faster.

Approvals your way

Empower your team with configurable approval channels based on custom fields like invoice amount, vendor, and more for maximum efficiency.

Pay for what you use

Have as many users as you'd like and pay only for the invoices you process. Sage AP Automation aligns your AP across all companies and departments.

Access from anywhere

Securely access and approve invoices for one or multiple companies online from any device, anywhere in the world.

Making you money

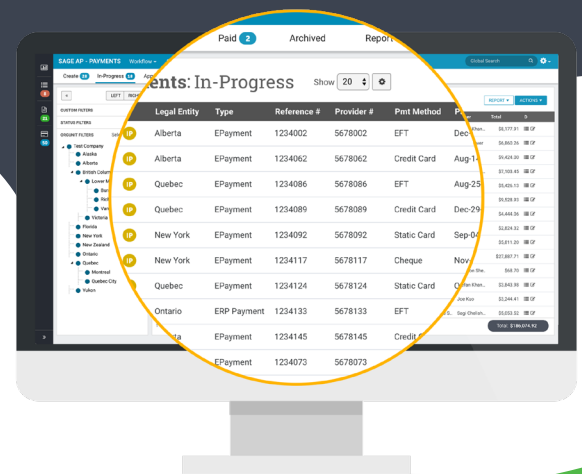

With our virtual credit card rebate program, you make money while paying directly from Sage AP Automation. Release a payment, get cash back—it's that simple.

Here to help you

You always have access to our live support team who are there to help you get the most out of Sage AP Automation.

The HQ of your payables

Sage AP Automation integrates with Sage 50c (Canadian) and Sage 50c (US), Sage 100c, Sage 300 and Sage 500 to provide a one-stop dashboard of your AP.

If you have any questions email us at sage@beanworks.com or call us at 1.877.959.2326 ext. 0117
