

Guess what?

A Certified
Openn Negotiation
Agent is now
selling property
in your area

So what?

This is great news because it means you now have easy access to a real estate agent who uses Openn Negotiation - a new online property purchasing platform designed to be transparent and fair for both buyers and sellers.

Managed by professional real estate agents, Openn Negotiation allows qualified buyers to openly negotiate on price with the advantage of knowing exactly how many real competing buyers there are. It's the only process you can really trust because as a buyer or seller, you're in complete control. This innovative process works for you by;

- ✓ enabling you to see eligible buyers and what their current highest bids are
- ✓ allowing buyers with varied terms and conditions to participate in the process, (once approved by the seller)
- ✓ allowing buyers to continually improve their price until no more bids can be made, so no one misses out unfairly.

This process often means a property has **less days on market**, and is sold at a price that is **fair for all**.
