

Discover the Power of Combining Limelight with your ERP General Ledger

Are you using Excel to extract data out of your ERP G/L and other systems? Then you could be spending too much time on gathering and consolidating spreadsheets and not enough time on analysis.

Limelight integrates with your ERP G/L to provide real-time planning, reporting and forecasting. By providing insights on key trends, our platform allows finance and accounting teams to make better decisions for their business.

Comparison

Spreadsheets with Errors	0%	90%
Creating a Report	1 hour	5-10 hours
Loading Data	20 seconds	2 days
