

Achieve on-demand access and visibility into your chemical and compliance risks across the enterprise.

MSDS management with an end-to-end Environmental ERP solution.

Organizations subject to MSDS related regulatory compliance (like OSHA RTK, TSCA, GHS, TRI and SARA) typically purchase non-integrated, silo solutions that overcharge for OSHA right-to-know (RTK) due to dated technology or maintaining a high price by including unnecessary functionality. Enviance provides pure cloud computing technology to deliver RTK at a fraction of the price of the current market that includes integration to its best of breed Environmental, Health and Safety core product that spans Air, Water, Waste, GHG, Sustainability, Incidents, Assessment, Audits and much more.

This is a unique combination of functionality and provides the opportunity for complete services such as, chemical inventory approval, secondary labeling, emergency response, regulatory analysis, MSDS authoring for GHS and more.

PACKAGED Solution

Enviance provides best in class full Chemical Lifecycle & Environmental ERP solutions. Enterprise-level chemical and EH&S compliance solutions are based on cloud computing technology making it easy for organizations of any size to grow their solution over time, cost effectively.

Integrating MSDS management base services at the true cost to deliver provides the basis for operational efficiency and cost savings throughout the supply chain through to EPA mandated reporting. Organizations achieve on demand access & visibility into their chemical and compliance activities across the enterprise.

- Database of millions of MSDSs
- OSHA RTK, convert paper or import into ebinder, capture search/retrieval data fields, de-duplication, archive older documents, establish website, safety training
- 24x7 hotline, emergency spill, transportation and medical exposure advice
- Chemical inventory approval
- MSDS and GHS authoring

- Data management/regulatory & supply chain analysis
- Integrated content for regulatory lists, chemical data & full EH&S CFR for regulatory evergreening
- Secondary labeling

REDUCE Compliance Risk

The first of its kind, the Enviance Environmental ERP solution eliminates excessive margins from MSDS databases, enables efficiencies, and significantly mitigates compliance risk throughout the enterprise. You'll have a comprehensive and transparent view of your compliance data, 24x7, 365 days a year.

Benefits:

- Centralized solution to manage chemical and EH&S compliance programs
- Corporate-wide visibility across facilities
- Low start-up costs
- Full OSHA compliance typically within 30 days
- Flexible and tailored solution
- Usage quantities – TRI/HAPS – automated EPA submission
- Inventory on-hand – Tier II – submission ready reports
- Supplier & Inventory rationalization

SAVE Time and Money

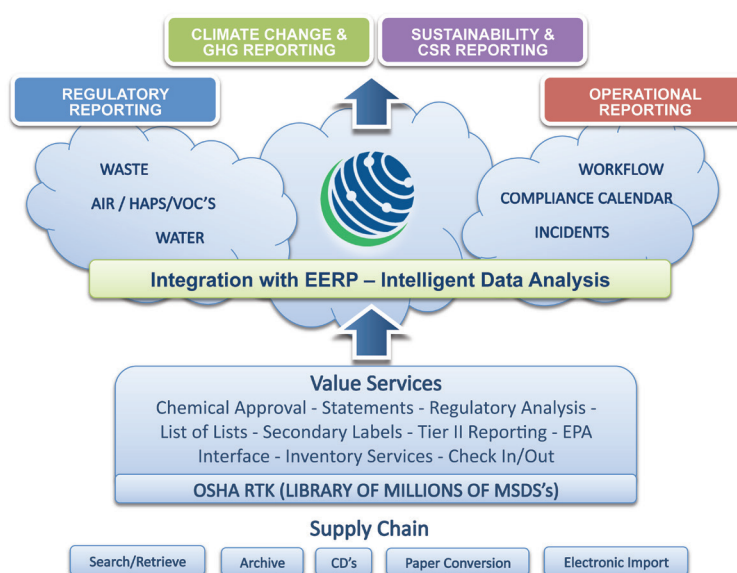

With more than 10 years of environmental expertise, the Enviance Environmental ERP solution is the industry's first platform developed using cloud computing technology. Cloud technology enables Enviance clients to access environmental data enterprise-wide from a single, centralized database providing the flexibility for customized solutions and scalability.

The unrivaled functionality of Enviance's cloud-based system reduces costs and complexity at every step – from collecting and collating data to report generation. The Enviance Environmental ERP system offers the following cost and time saving benefits:

- Eliminate spreadsheet errors by deploying a consistent, reliable, and standardized database management solution across your organization
- Maintain a central repository that collects and stores data once, and reports it multiple times - reducing the time, cost, and risk associated with handling data multiple times
- Deploy verifiable and transparent data collection and calculation methodologies providing confidence in the data and information reported to key stakeholders
- Easily connect other information systems reducing the inefficiency associated with manual transcription and aggregation
- Realize the lowest Total Cost of Ownership (TCO) with proven cloud computing technology which delivers these benefits faster and more efficiently than any environmental management software solution available

Enterprise CLM & EHS Risk Mitigation Management of Change, Regulatory Content Evergreening

ENVIRONMENTAL ERP

Environmental ERP meets the unique and evolving business need to measure, understand, report on and mitigate a company's impact on the environment – providing a comprehensive understanding of environmental performance within the broader business context.
