RELEASE 02/24/20 HANDLING RESUMES

NEWS 02/24/20

During 2020 A Society will release some news regarding our consultant login based on feedback from our consultant network.

On Monday 24th of February we will release a project called “How to handle resumes” in our consultant login.

- ✓ The consultant will now be able to download their resume to their on computer and read the content.
- ✓ When A Society have saved resumes in our database these resumes will also be visible and available for the consultant when they have signed in. Therefore there is a possibility that the portal shows more resumes than the consultant has saved in the portal.
- ✓ E.g. if the consultant has applied for an assignment and attached the resume, this document will be available for the consultant in the portal too.
- ✓ The consultant now has the possibility to administrate all their resumes from the consultant login. If a document is erased from the portal, the document will also be erased from the A Society database.
