

## 11 reasons why the Cloud is the future

Your safe way to the right platform.

|    |   |
|----|---|
| 1  | The Cloud service is immediately available to use.                                  |
| 2  | The Cloud reduces costs.  |
| 3  | The Cloud provides the data and information for everyone at the same level.         |
| 4  | The Cloud saves time.   |
| 5  | The Cloud simplifies workflows and processes.                                       |
| 6  | Everyone has access to the Cloud at any time from anywhere in the world.            |
| 7  | No required hardware and software, purely browser-based.                            |
| 8  | The Cloud always provides as much resources as needed.                              |
| 9  | The Cloud service provider takes care of the hardware, operation and updates.       |
| 10 | The Cloud service provider invents new features from the feedback of all customers. |
| 11 | Profit from processes and workflows of other market participants.                   |
