

Poll results

16.03.2017

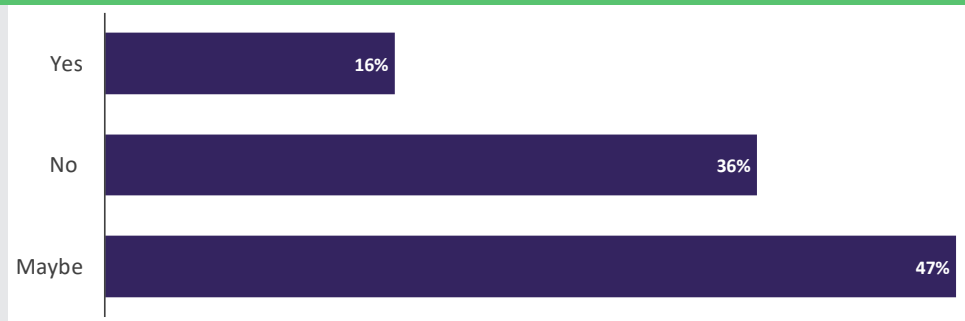

These poll results were taken from a recent webinar (which you can listen to [here](#)). Respondents include trading technology professionals across buy-side, sell-side, and asset servicing companies.

Q1 Does your firm have a good understanding of new time-stamping requirements?

Q2 Do you feel prepared to meet the new standards set for time-stamping?

Q3 What is the most helpful or useful approach to clock synchronization?
