

WARING WORKS

& Waring Works Jr.

July 2-27, 2018

(no camp 4th of July)

Waring Works ages 7-14

Monday-Friday, 9:00am-4:00pm

Waring Works Jr. ages 5-6

Monday-Friday, 9:00am-1:00pm

Waring Works at Waring is a long-established summer experience combining learning and fun. In the morning, children have the chance to work in depth in one of seven Majors: Theater, Visual Arts, Video, Science Exploration, and Waring Works Jr. We end the day with recreation and whole group activities. On the final day of the program, we have a presentation of what we have created together!

Waring Works Jr. is a half-day program for children ages 5-7 who have completed at least 1 year of kindergarten.

waringschool.org/summer

All checks should be made payable to Waring School. All registration forms are due before or on the first day of camp. Tuition balance is due on or before June 23, 2018. Contact Jim Watras at jwatras@waringschool.org for scholarship info. Make checks payable to Waring School and mail to:

ATTN: WARING WORKS, Waring School, 35 Standley St., Beverly, MA 01915

(detach and return the below portion)

Waring Works: \$1,400 for the month or \$425 per week (\$380 for week 1)

Waring Works Jr: \$1,000 for the month or \$300 per week (\$240 for week 1)

Waring Works: MAJORS

Theater

Be part of a fun and expressive theater company. We will learn a variety of acting skills and theater techniques, and then perform a play on the last day of the program. (We very well may write and present our own piece.) To be in the play, you need to commit to be at Artworks for at least the two last weeks of the program. (For those who are only able to do theater for less time there will still be opportunities to perform in smaller scenes.)

Visual Arts

Try all sorts of media: painting, drawing, sculpture, collage, mask-making. Work on your own and on group projects such as murals and camp installations. Visual Arts Majors are known for their wonderful exhibitions at the end of camp and their help in working on sets for Theater.

Video

Be part of a video team that writes, acts in, films, and edits its own series of video pieces. Prior video experience is not necessary but will be helpful (as will your own camera). At the end of Waring Works, there will be a showing of movies we have made. Limited enrollment.

Science Exploration

Science Exploration is a hands on Major with distinct week-long activities, all using the new Waring Makerspace. These activities may include Robotics, Flight, Computer Programming, Solar Power, and Biology. Whatever we choose, campers will learn by doing and will also present the results of their learning in presentations to other campers.

Waring Works Jr.

Waring Works Jr. is a half-day program (9:00am-1:00pm) for children ages 5-7 who love to create and explore. Our fun-filled days include building, painting, drawing, cooking, woodworking, sculpting, pretending, experimenting and investigating the worlds of art, science and nature. We make play houses, ice sculptures, musical instruments, costumes and much, much more. We do astounding science experiments, play great games and take fun-filled trips. We will have lunch together daily, at times preparing the food we eat. Group is limited to 12 children so sign up early. Seven-year-olds may participate in the full-day program by listing Waring Works Jr. as a Major.
