To Whom It May Concern:

Baltimore Gas and Electric Company (“BGE”) is a utility company that provides gas and electric utility service to homes and businesses in Baltimore City and several surrounding Maryland counties. Due to the evolving COVID-19 pandemic, state Governors and other elected officials have ordered statewide business closings, curfews, or stay at home orders in areas in which BGE operates (or in which employees and contractors reside), as well as in adjacent areas. In particular, on March 30, 2020, Governor Hogan issued an order providing that “[a]ll persons living in the State of Maryland are hereby ordered, effective as of 8:00 p.m. on March 30, 2020, to stay in their homes or places of residences.”

Governor Hogan’s order specifically exempts and does apply to all businesses, organizations, establishments, and facilities that are “part of the critical infrastructure sectors identified by the U.S. Department of Homeland Security’s Cybersecurity and Infrastructure Security Agency,” which includes the energy sector.

By extension, affiliates, companies and contractors that provide materials and services to BGE are an essential part of BGE’s provision of utility service. The work of these affiliates, companies and contractors is essential and therefore must also continue to enable BGE to provide safe and reliable utility services to customers and critical facilities.

We understand that governmental officials, including law enforcement, may question your ability to continue working. If stopped, present your ID and explain to law enforcement that you work for BGE in the provision of electrical and gas services, which is specifically exempted under the Governor’s order. This letter should also be presented if supplemental verification is requested.

Sincerely,

Carim V. Khouzami  
BGE Chief Executive Officer
