» Complete Hardware Platform Development

» Scalable Services - Single Rack or Multiple Systems

» Comprehensive Order Fulfillment Logistics

» World-Class Capabilities

» World-Class Results

» Serving Small Companies to Global Leaders

DESIGN SERVICES
NCS offers a full suite of design services and is ISO 9001 certified. Our specialty is in the design of x86 and ARM-based computers. The NCS team includes all necessary engineering disciplines. Complementing our capabilities is a network of vendors and partners in both the U.S. and Taiwan.

INTEGRATION SERVICES
Our comprehensive product integration services enable us to design and validate high-quality custom products that can be any combination of commercial-off-the-shelf and purpose-built parts and sub-assemblies. An experienced integration engineering team operates from our Northern Virginia facility and is dedicated to this business.

MANUFACTURING SERVICES
Our manufacturing facility is ISO 9001 and 14001 registered and is designed for high-mix, low-to-high-volume custom production, with streamlined processes that allow quick turnaround. We can quickly scale to meet rapidly changing customer requirements.

WAREHOUSING & FULFILLMENT SERVICES
NCS helps manage customer inventory and distribution. Services include maintaining inventories of completed, returned, customer-owned and evaluation units. We also stock critical system components to enable expedited shipments.

LIFECYCLE SUPPORT SERVICES
Lifecycle Support Services is a checks-and-balances system involving technical support, customer service and program management teams. The Technical Support and Customer Service group is the infrastructure that delivers technical support and break/fix repair services. In addition, a Program Management team is assigned to each customer and defines, compiles and issues service requirements, reverse legistics, monitors compliance and advocates for the customer.

About NCS

NCS Technologies, Inc. is registered to ISO 9001:2008 (quality management) and ISO 14001:2004 (environmental management). This status is the manifestation of our commitment to quality excellence and environmental stewardship.

- NCS is a Small Business

Rugged Servers & Special Mission Systems

Dependable • High Performance • Scalable

Rugged Servers & Rugged Rackmount PCs

Special Mission Systems

Rack Integration

Rugged Servers

Bunker XRG-5241 1U
Barricade XRG-5251 2U
At Sea or On Land
Proven in Harshest Environments

» 18.38" Depth
» Industry's Lightest Solutions
» High Performance
» Hard Drive Retention
» Power Cord Retention
» Hot-Swappable Power Supply

Rugged Rackmount PCs
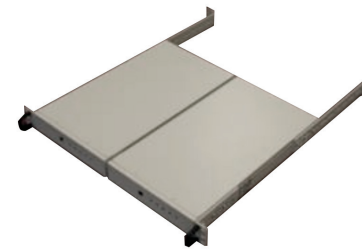

Stratus RT-5280 1U
Stratus RT2-9480 2U
Deliver One Software Image Across Multiple Platforms
Benefit From Common Hardware, Common Components

» 18.38" Depth
» Industry's Lightest Weight
» High Performance
» Hard Drive Retention
» Power Cord Retention
» Hot-Swappable Power Supply

Custom Products

Satellite Modem Compression Engine

» Small Form Factor for Military Vehicle Mobile Racks
» High Performance, Low Power, Long Service Life
» Side-by-side two nodes in 1U

Rugged Mobile DVR

» Proven Performance for Tactical Vehicles
» Multiple Power Options
» High Performance in Harshest Environments

Portable Briefcase Platform

» Ideal for Network Security Applications
» Small Footprint

Portable Blade Cluster Server

» Briefcase Size, Portable Chassis
» Mobile, High Performance Design
» Up to three dual socket compute nodes
» Option Network Switch Module

Turn-Key Solution Selected by Largest System Integrators

Ready To Drop In for Rapid Deployment at Sea or Ashore
