

C4T's Customs Accounting System (CAS) is a comprehensive solution that automates customs and trade compliance processes.

It is a centralised, collaborative hub designed to manage regional or worldwide customs and trade compliance quickly and accurately, within one single platform.

Key Benefits

Continuity

Stay up and running 24x7, 365 days a year—guaranteed.

Strategy

Deliver strategic insights and a clear view of operations by having all data, flows, costs, and statuses in one single place.

Compliance

Say goodbye to costly surprises. C4T continually updates legislation and compliance information so your paperwork sails through every time.

Cost Savings

Save money and accelerate your time to market with automation, centralisation, and the ability to bring your customs and trade functions in-house.

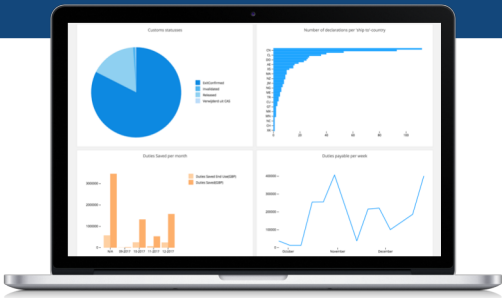

Easy adoption

Get up and running quickly with RESTful APIs and an intuitive user interface.

Features

Visibility

Get insights you never had before with an intuitive dashboard that provides a consolidated, real-time overview across all operations. Monitor your core KPIs and steer your business to success..

SaaS Solution

Our Software as a Service (SaaS) model does away with all operational complexity, seamlessly delivering the latest features and functionality. CAS easily integrates with existing ERP or WMS systems via RESTful APIs.

Modular

Activate the functional modules you need now and expand later as your business grows. CAS is built modularly for maximum flexibility.

Management

Scalability

Scale your business needs and customs requirements as needed. You can easily expand or reduce your capacity as resources and regions shift.

Compliance

Leave the details to us. Your legal and compliance requirements will always be up to date in the system, guaranteed.

Validation

Validation rules ensure accurate ingestion and input of data. Exceptions trigger notifications for rapid remediation.

Multi-country

Expand at will. CAS applies different customs procedures across the various countries your business is active in to assure compliance.
