Count	Description				
1	TPE2 D 65-60 N-A-G-A-BQQE-DAB				
	Product No.: 98817798				
	Single-stage, close-coupled, volute twin-head pump with in-line suction and discharge ports of identical diameter. The twin-head pump is designed with two parallel power-heads. The pump is of the top-pull-out design, i.e. the power head (motor, pump head and impeller) can be removed for maintenance or service while the pump housing remains in the pipework.				
	Each power head is fitted with an unbalanced EN 12756. Pipework connection is via PN 16 Pipework connection is via PN 16 ANSI flage	ANSI flanges.	The shaft seal is according to	D	
	Pipework connection is via PN 16 ANSI flanges. Each power head is fitted with a fan-cooled, permanent-magnet synchronous motor of identical size. The motor efficiency is classified as IE5 in accordance with IEC 60034-30-2.				
	The motor includes a frequency converter and PI controller in the motor terminal box. This enable continuously variable control of the motor speed, which again enables adaptation of the performance to a given requirement.				
	Further product details Wireless communication between the two po heads can be set to cascade mode, alternation	wer heads is quickly and mode or duty/stand	and easily obtained. The pum lby.	р

ount	Description				
	Motor The motor is a totally enclosed, f	principal dim	nensions to IEC and DIN		
	standards. Electrical tolerances comply with IEC 60034.				
	 The motor efficiency is classified as IE5 in accordance with IEC 60034-30-2. The motor requires no external motor protection. The motor control unit incorporates protection against slow- and quick-rising temperatures, e.g. constant overload and stalled conditions. The terminal box holds terminals for these connections: one dedicated digital input two analog inputs, 0(4)-20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V 				
	- 5 V voltage supply to pote				
	 one configurable digital in Grundfos Digital Sensor in 		output		
	- 24 V voltage supply for se	ensors			
	 two signal relay outputs (
