### Hydro Multi-E 2 CRE 3-9

Energy efficient pressure boosting system for boosting of clean water. Available with 2-4 parallel connected frequency controlled pumps, integrated advanced controller and all necessary fittings.

Conditions of Service		
Flow:		
Head:		
Efficiency:		
Liquid:	Water	
Temperature:	68 °F	
NPSH required:	ft	
Viscosity:		
Specific Gravity:	1.000	

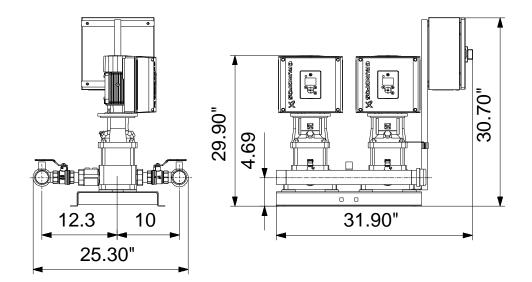

Pump Data	
Maximum operating pressure:	232.06 psi
Liquid temperature range:	32 140 °F
Product number:	On request

	Motor Data				
	Rated voltage:	208-230 V			
	Main frequency:	60 Hz			

### Submittal Data

### Materials:

Pump housing: Cast iron
Manifolds: Stainless steel

Hydro Multi-E 2 CRE 3-9

Product photo could vary from the actual product

Product No.: On request

A GRUNDFOS Hydro Multi-E booster set consists of 2 to 4 speed controlled CR pumps (CRE pumps).

Each CRE pump is equipped with an integrated variable frequency drive motor (MLE motor).

- Hydro Multi-E maintains constant pressure through continuous adjustment of the speed of the pumps.
- The system performance is adapted to the demand through cutting in/out the required number of pumps and through parallel control of the pumps in operation.
- Pump cascade control is based on first on first off to ensure equal pump wear.
- All pumps in operation will run at equal speed.

GRUNDFOS Hydro Multi-E booster sets are designed for pressure boosting of clean water in residential/commercial building, municipal, industrial, and irrigation applications.

The control of the Hydro Multi-E system is accomplished through Proportional-Integral control via a multi-pump controller card mounted in one of the MLE motors. The Hydro Multi-E system start/stop and set-point adjustment is possible through the use of two push buttons located on the MLE motor or with the R100 remote controller.

The system consists of these parts:

- Suction manifold and discharge manifold made of 316 stainless steel.
- Base frame made of 304 stainless steel.
- One non-return valve (check valve), and two isolating valves for each pump.
- Adapter with isolating valve for connection diaphragm tank.
- Pressure gauge on suction and discharge manifolds.
- Pressure transducer on discharge manifold.
- Dry-running protection is standard with use of differential pressure switch on suction manifold.
- A service disconnect switch located in a NEMA 3R enclosure is mounted to each pump for ease of service.
- Grundfos bus communication with optional gateway connections for LON, Modbus, Profibus, BACnet, GSM

When delivered, the GRUNDFOS Hydro Multi-E booster set is factory tested and ready for operation.

Diaphragm tank is available as an accessory.

Liquid:

Count | Description

Pumped liquid: Water
Liquid temperature range: 32 .. 140 °F
Selected liquid temperature: 68 °F
Density: 62.29 lb/ft³

Materials:

Pump housing: Cast iron

Installation:

Maximum operating pressure: 232.06 psi Maximum permissible inlet pressure: 145.04 psi

Manifold inlet: 2" NPT Manifold outlet: 2" NPT

Electrical data:

Power (P2) main pump: 1.5 HP Main frequency: 60 Hz

Rated voltage: 1 x 208-230 V
Rated voltage main pump: 1 x 208 V
Rated current: 13.4 A
Start. method: electronically
Radio interference supression: IEC/CISPR 11-1B

Tank:

Diaphragm tank: No

Others:

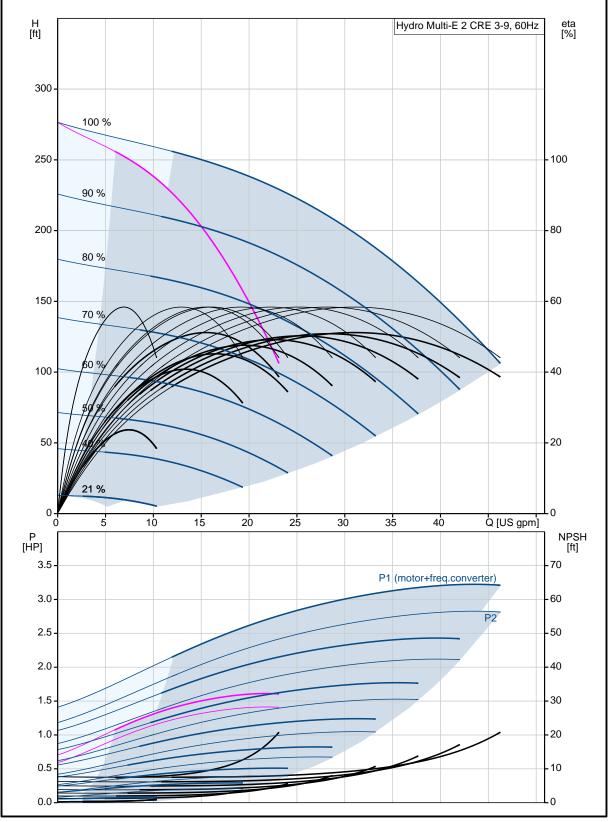

Net weight: 193 lb Gross weight: 285 lb Shipping volume: 33.9 ft³
