Vallee requested a correction noting “...I stated in the Executive Session that I stepped out in point of discussion of Keith’s evaluation was done…and I came back and make the motion to come back into session.”

On a motion by Board Member Willie Rack and seconded by Board Member Gillis R. Windham, the Minutes of the February 13, 2019 LHC Board of Directors Meeting were unanimously approved.

BOARD CHAIRMAN’S REPORT

Board Vice-Chairwoman Jennifer Vidrine gave a brief overview of the recent NCSHA 2019 Legislative Conference held in Washington, D.C.; she noted that the meeting held with Senator Cassidy was well received and that the Senator had applauded LHC’s vision and accomplishments; and that there had been meetings with all of the Louisiana Congressional Delegation either directly or indirectly with their staff.

LHC EXECUTIVE DIRECTOR’S REPORT

ED Cunningham reminded everyone of the upcoming April 2nd – 4th LHC Housing Conference; he laid out plans for the upcoming 2019 QAP and strongly urged the Board to
review documents in preparation thereof that he’d sent to them regarding the 2019 QAP; that at the May 2019 BODM he would give an outline for targeted fundings; that LHC had recently appeared before the State Bond Commission; that there had been meetings with LRA; that LHC was partnering with Cristo Rey High School; that there might be an April NOFA for Emergency Solutions Program; and, that LHC was reviewing its Environmental Process.

Mr. Perry Franklin addressed the Board and went over the Environmental Process (PowerPoint available upon request).

Mr. Franklin discussed Environmental Programs, Standard ERPP Programs, Post-Flood ERPP Programs, Environmental Review Process, Environment Review Record Compilation, and New Flood Recovery Programs.

Board Vice-Chairwoman Vidrine inquired as to whether there were ways to streamline LHC’s environmental review process.

Mr. Franklin replied that some projects were receiving blanket approval letters, and that he was in dialogue with OCD ascertaining if any blanket approvals were already in place.

LHC ED Cunningham offered that LHC was looking at ways to be more communicative with developers.

BVC Vidrine inquired as to what was the average timeframe for completion of an environmental review.

LHC Recovery Housing Administrator Robby Bizot noted that the average timeframe was around 120 days, but that such varies with each project. He noted that projects with a “good location” normally had less obstacles and delays during their review process.

Board Member Vallee inquired as to whether LHC had enough staff. ED Cunningham noted that LHC had a hard working and dedicated Environmental Review Officer, and that a recent finding of LHC’s environmental reviews concluded a NO FINDINGS evaluation.
