

# 2016 Healthcare Convention Calendar

## Introduction

NAS Insights is pleased to present the *2016 Healthcare Conference Calendar*, which contains information about key professional events in the healthcare field. Having this helpful tool at your fingertips gives you the opportunity to begin scheduling your recruitment visits for the upcoming year.

The calendar, which is organized both chronologically and by nearly 50 medical subject areas, contains over 560 conference dates and locations. We've also added links to each sponsoring organization's website so you can find out more about potential attendees, exhibiting, hotel information, sponsorship and other conference advertising opportunities. If you are unable to attend a conference, many organizations accept recruitment advertising in their conference programs. A call to an NAS Media Account Director can help you with all the details.

Please note: Some organizations had not finalized the exact dates or locations of their conventions at the time this report was published. In these instances, we have provided the information that was available. Also, dates and locations of events are subject to change by the sponsoring organization.
