

Employee-Level Data Management

Gain transparency into your suppliers at the employee level

BROWZ can track and monitor employee-level compliance information for your suppliers. This can include management and tracking of trainings, integration with badging and ERP systems, time tracking, and much more. Effective dates and expirations for requested information can be recorded and monitored with intuitive icons showing compliant or non-compliant persons.

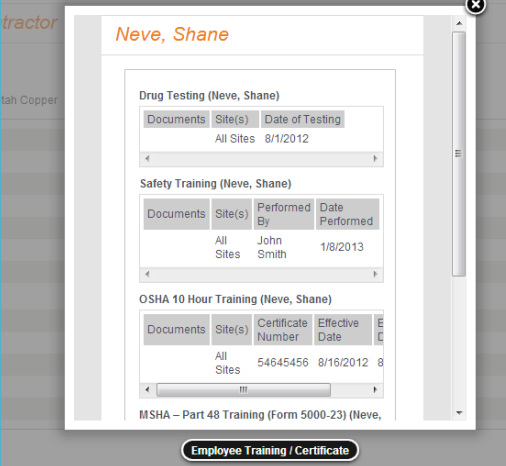

Should you require employee-level information that is specific to certain sites, BROWZ can manage and maintain the complexity of this data and have it relate to the compliance of the individual employee and the overall contractor's compliance status.

Employee-Level Information Includes:

- Collection of Employee Data & Documents
- Training
 - Such as: MSHA, OSHA, Confined Space, Forklift, Crane Operator, Rigging Certification, Hazmat
- Attendance and Time Tracking
- Employee-Level Compliance
 - Certifications (such as, Basic Plus, MVR)
 - Licenses
 - Education Professional Licenses
 - Background checks
 - Drug & alcohol testing
- Employee photos
- Employee Level Requirements (each employee measured against a defined criteria)
- Employee Emergency contact information
- Employee History

✓	Dougherty, Kristine O.	
✓	Wilkerson, Priscilla I.	
✗	Steele, Eric T.	
✗	Barton, Elsie A.	
✗	Hewitt, Melanie E.	
✓	Sinclair, Patsy I.	
✓	Sparks, Faye P.	
✗	Case, Arlene A.	
✓	Sutton, Sherri U.	

Employee-level data is stored in BROWZ at the employee level allowing you to see the person's compliant or deficient status.

You can click into an individual's record to see the detail on their status for training, screening, and much more.
