Service Training A-Series Tooling Maintenance

Tooling maintenance training:

The main objective of this course is providing our customers with the confidence and knowledge they require to be competent whilst working on Sealpac equipment. Our course offers a broad understanding of the tooling itself and customers are shown how to maintain tooling effectively and efficiently.

Course content:

- Tooling Introductions
- MAP Fundamentals
- Understanding Vacuum
- Understanding different tool types
- Understanding the tool function
- Understanding the tool construction
- Tool disassembly & reassembly
- Understanding spares manuals
- Rectifying common faults

Machines	Delegates	Duration	Time	Fee per person
A-Series	6 Max	2 Days	9am-5pm	£1000
Lunch and beverages will be provided during the entire course.
