PAYMENT APPLICATIONS

CONSTRUCTION PAYMENT MANAGEMENT

A BETTER WAY

Managing subcontractors' applications for payment has traditionally been a heavily manual process, usually involving spreadsheets, paper, ad-hoc processes and significant human effort. This happens each and every month.

Managing this process efficiently and seamlessly is paramount to the success of any construction project.  **PAYAPPS** connects your entire project by managing the complete application, assessment and payment process through cloud collaboration between your commercial team and subcontractors.

Both main contractor and subcontractor benefit from significant time savings and process efficiencies, reduction in errors, increased compliance and auditability and increased transparency.

LET THEM BUILD

Time is money, and it's precious. We get it. It's why we've created so many features that streamline, simplify, integrate and automate construction payment management processes.

Payapps takes the hassle out of applications, payment notices and compliance. You and your project team can spend your time doing what you do best.

YOUR INDUSTRY - OUR APP

We know construction. Payapps was created specifically for it. We understand the obstacles that come with collaborating across the supply chain and know the legislation and required compliance specific to your industry. We are proud of the functionality Payapps has on the ground, and how it works for our many thousands of users.

TO SERVE AND PROTECT

Payapps reduces risk in real time. With assessment deadline reminders, visibility of variations and a full audit trail, Payapps has you covered. The risk of disruption to projects and the supply chain is minimised by our collaborative and easy to use solution – ensuring Construction Act compliance across all projects.

FEATURES AT YOUR FINGERTIPS

Here are a few of the standout features of Payapps, accessible anywhere at any time, from any PC, tablet or phone.

STREAMLINED WORKFLOWS AND AUTOMATION

Payapps provides a central platform to automate and manage applications for payment and payment notices, saving time, reducing errors and double handling. Supply chain collaboration and cash flow are improved.

COMPLIANCE

Handle compliance document storage, audit trail and alerts in one place. Payapps ensures Construction Act compliance by managing key dates and deadlines.

SEAMLESS ACCOUNTING SYSTEM INTEGRATION

Automate seamless transfer of critical financial data between Payapps and your ERP solution. Drive efficiency by eliminating redundant data entry and errors.

FINAL ACCOUNT STATEMENT

Automate and digitise final account statement, eliminating time and ensuring compliance.

MOBILE

Manage applications for payment on Payapps anywhere, anytime and from any device.

SUPPLY CHAIN COLLABORATION

Enable true supply chain collaboration and standardisation of AFPs.

INNOVATION - IMPLEMENTATION - YOU

Payapps is the UK's leading solution for construction payment management. Onboarding is quick and easy. Both main contractor and subcontractors gain ongoing access to our expert team who train and then support you.
