

RF Solutions to Meet the Demands of Any Environment

High quality video distribution to an unlimited number of displays.

HDbridge and ZvPro Solutions Deliver all the Benefits of AV over RF

 Network	High quality digital SD and HD video can be delivered using the existing coaxial infrastructure. QAM and DVB-T/C signals can be distributed to an unlimited number of displays across any distance.
 Sources	Converts composite, component, VGA, unencrypted HDMI and even HD-SDI sources into a signal that is sent to the built-in tuner in the display.
 Performance	Uncompromising AV quality, with near limitless scale and steadfast reliability. Engineered to operate 24/7/365 in the most demanding environments.
 Budget	Cost-effective RF solutions that utilize the QAM or DVB-T/C tuner in the display, there is no need for a set-top-box at each TV.
 Simplicity	Maestro provides a powerful framework that simplifies set-up, use, and management. Integrators and installers don't need to be programmers or hold special certifications to deploy ZeeVee's RF solutions.

Powered by Maestro

- ✓ Intuitive, browser-initiated management platform
- ✓ Easily configure and manage entire deployment
- ✓ Remote or local access
- ✓ Control source, set-top-box, ZvShow and ZvEAS

Built-in Features

- ✓ Bonus channel with ZvShow
- ✓ Emergency Alert System Integration
- ✓ Simultaneous IP Stream (iSeries only)

Solutions to Support Every Market

We enable customers to realize dreams, not just objectives, in how they deploy video.
