New Product Release Model H38i

Initial Availability: March 2016

Talking Points

- Most powerful Walker Mower ever offered with 11 additional horse power (compared to H27i)
- Plenty of power to operate all of the biggest Walker decks and attachments, including the new DR64 (offers 13 additional foot pounds of torque when compared to H27i)
- Power, ground speed and fuel economy are optimized for High Production Mowing
- Redesigned rear axle for superior handling and comfort when mowing on rough ground

Compatibility

- Decks: DR52, DR64, DS60 and DS48, DS52, DS56, DS62, DS74 (with adapter kit)
- Add-ons: 42" Snowblower, 60" Dozer Blade, 50" Snowblower, 60" Rotary Broom, Hard Cab

Target Customer

- Commercial Operators - Fuel efficient, powerful machine for quicker job completion
- Municipalities - Durable, robust mower with ample power and operator comfort
- Farm and acreage owners - Manicured and rough grass mowing, versatile with implements

Application

- Mid to large size properties - mows fast in wide open areas, agile enough to work efficiently in smaller, landscaped areas as well. Versatile machine runs a variety add-ons.

Specifications

- 38 HP Kohler Big Block EFI Engine
- Dual 4.7 Gallon Fuel Tanks (9.4 total)
- Grammer Suspension Seat with Armrests
- Hydro Gear™ ZT3400 Transaxles
- 10 MPH Ground Speed
