

NUTEC GIVES BACK TO THE COMMUNITY

On Friday January the 17th, Nutec staff attended a ceremony at the facilities of the local school called “CAM #1”, to deliver the money that was collected in our internal “Nutec Bazaar”; this activity consists in selling different articles donated by employees to other employees and their families, and then giving the collected money to a charity institution elected by all the participants in the bazaar.

CAM #1 is a public school devoted to provide basic skills training to kids with different kind of disabilities, helping them to be self-sufficient by learning a profession. The money we donated will be used to start a new training area in their facilities.

We are proud of Nutec people’s contribution to this effort. Social responsibility is one of our Cultural Principles and we are “walking the talk”.
