

Project Management Consulting

CGN Global Project Management Credentials

Clients look to CGN Global as a Project Management Outsourcer based on our reputation for delivering consistent, high-quality results for a variety of critical project engagements. Our experienced resources consistently deliver on commitments, bringing to the table knowledge transfer, a collaborative work approach and established methodologies.

Proven Results

CGN Global works with clients to manage complex projects across a range of industries. We also provide expertise to support technologies that improve our client's position and competitiveness. Collectively, our associates have led complex project management, performing the following functions:

- Developing detailed project plans comprising manageable sub-projects and tasks
- Conducting skill assessments to assemble teams that match skills with job requirements
- Driving projects and tracking progress relative to the plan
- Facilitating communication among team members, stakeholders and the client
- Addressing and resolving technical and non-technical issues impacting the project
- Managing cost, duration, quality and scope to ensure the project is completed on time, within budget and exceeding expectations
- Evaluating impact of changes, following a consistent change-control process and approval matrix

- Utilizing a range of project management methodologies, software and techniques.

CGN Global Expertise

Members of CGN Global's team have more than a decade average industry and technical experience, and 70 percent maintain leading business certifications. With expertise and training in industry-leading practices, the Program Management Office Project Managers skillfully maintain communication and control of large projects, with key areas of responsibility and relevant credentials including:

- Planning, issue and risk management
- Communication and business facilitation
- Methodology and standards
- Metrics and reporting
- Certified Associate in Project Management (CAPM)
- Project Management Professional (PMP)

Our Global Scale

CGN Global is a premier management and IT consultancy. Headquartered in the Chicago metropolitan area, the firm provides services in technology enablement, strategy development and outsourcing to global clients.
