WCS Group
The perfect formula
for **water treatment**
solutions

WCS Group, who are we?

WCS Group are water treatment and control improvement specialists, offering a pure quality service in every sense. We provide water systems and process management, life cycle management, Legionella control, ACoP L8 compliance and training which helps customers reduce energy and water usage safely and reliably. We tailor risk assessment, chemical dose, monitoring and water treatment solutions for each individual plant configuration.

- Closed heating and chilling systems
- Cooling towers and steam boilers
- Chemical cycle, dosing, supply and monitoring
- Sampling, testing and recording
- Treatment – Legionella control, disinfectant and cleaning
- Basic and Advanced ACoP L8 training and IOSH training
- Safe, compliant Water Hygiene

What do we do?

We facilitate new and better water treatment and process control improvements. Our customers receive outstanding system risk management and processes to protect against corrosion, scale and bacteria which can impact on plant reliability and performance over time. Our deep-sector technical knowledge adds value to in-house staff and enables uncompromising compliance.

Who do we service?

Our customers are single and multi-site operators, FM Service Providers, Local and Central Government organisations across education, manufacturing, healthcare, food, leisure and heavy industry, for example. They include Facilities, Plant, Maintenance, Production, Operations and Head Engineers as well as 'Hard' Service buyers.

Why WCS Group?

- Useful audit of assets and independent risk assessment
- Tried and tested closed circuit, water cooling and evaporative condenser solutions
- Problem solving and new levels of plant efficiency
- Optimised water treatment and chemical cycle solutions for YOUR site(s)
- Technical competence that enhances your knowledge and understanding

Our commitment to you

- We will supply a site audit to help you better understand asset and cycle risk and create start-point benchmarks
- We will solve problems and try to cut chemical use and annual expenditure
- We will recommend and implement a water treatment and systems solution for your specific plant configuration
- We will give all approved colleagues access to 'Insight' – our web-based intelligence system for testing, recording and analysis keeping you compliant and enabling better decision-making
- Outstanding customer service, system improvement and operating efficiencies

Our experience includes:

National coverage, local service

Technological advances are shared nationally but service is managed by local engineer teams who are familiar with specific sites and territories.

A Marlowe Critical Services company

WCS Group is the 'Water Treatment and Hygiene' division of the Marlowe Critical Services Group owned by parent Marlowe plc. The Group provides one access point for specialist 'highest standards' across 'Fire & Security', 'Water Treatment & Hygiene', and 'Air Quality' – three divisions can be accessed singularly or in combination. The Group shares many common customers and collectively employs 1,100+ specialists, servicing 10,000+ customers, carrying out 500,000+ service visits and helping manage over 10 million assets for circa 6% of the UK's 1.8 million non-residential buildings.

One name. One standard. Everywhere.
