

# What You Should Look for in a Telehealth Solution

There are a variety of telehealth solutions available for veterinarians, and it can often be difficult to decide which one works best for your practice and processes. It's important to compare the key features of service providers you are evaluating to find the one that's the best fit for your needs.

Below is a listing considerations you should keep in mind when looking for a veterinary telehealth solution:

 medici	Other Solution	
<b>Compliance &amp; Security</b>		
✓		Connects you with clients with whom you have a valid VCPR
✓		Securely encrypts messaging
<b>Functionality</b>		
✓		Offers secure text voice & video chat
✓		Allows you to upload and store files, images and consult details
✓		Has robust features including Colleague and Group Chat
<b>Revenue</b>		
✓		Allows you to be compensated for consults
✓		Gives you ability to set your own rate
✓		Handles billing in-app
<b>User Experience</b>		
✓		Has an easy-to-use interface for both clients and veterinarians
✓		Works seamlessly across smartphone, desktop and tablet with no special equipment

**Additional Considerations Specific to Your Practice:**
